Face-Planed Exterior Barn Siding

100% RECLAIMED – NATURALLY WEATHERED BARN SIDING

Characterized by contrast, parts of each board are planed down to reveal the raw quality of old growth timber underneath the weathering, while parts are left untouched to display the hard-earned antique finish. By simultaneously displaying both the aged and the original state of each board, this contrast celebrates both the beauty created by decades of exposure and the quality of timber it took to last.

AUTHENTIC BARN SIDING FROM OUR NATIONS'S PAST.

Olde Wood's reclaimed barn siding gives a completely unique look to any interior or exterior wall covering. This authentically recycled lumber is virtually maintenance free and has already stood the test of time having survived 100+ years of harsh weathering in the northeastern part of our nation. True beauty earned with age. Each board is individually inspected and graded to ensure durability, preservation and long life.

BARN SIDING SPECS:

Hand-selected from weathered barns of the American Northeast, each board is individually inspected and graded to ensure durability, preservation and long life.

BOARD WIDTHS	3"– 6" or 4"– 8" random widths
