

# Prefinished Red Barn Siding

**100% RECLAIMED** – BARN SIDING with UNIFORM COLOR

Long ago farmers painted their barns with a mixture made from linseed oil, rust, and lime, which dried to a deep red color. As paint became more widely available, red became the barn color of choice as a fashionable homage to the past. Continuing in this tradition, this siding combines the deep textures and historic authenticity of naturally faded siding with the uniformity of an evenly coated surface. Every board undergoes a custom coating process that preserves its weathered character while adding consistency in color.

## AUTHENTIC BARN SIDING FROM OUR NATIONS'S PAST.

Olde Wood's reclaimed barn siding gives a completely unique look to any interior or exterior wall covering. This authentically recycled lumber is virtually maintenance free and has already stood the test of time having survived 100+ years of harsh weathering in the northeastern part of our nation. Each board is individually inspected and graded to ensure durability, preservation and long life and a variety of finish options assure tasteful pairing with any residential, commercial, or retail project.
