

Antique Reclaimed OAK

RECLAIMED FLOORING – AUTHENTIC FROM VINTAGE STRUCTURES

The strength, durability, and availability of the massive Oak trees that populated the early American forests made it the go-to timber for barn and granary construction. The mighty Oak is as much a part of Americana as the barn itself.

Meticulously curated from the reclaimed joists, rafters, granary boards, siding and floor-boards of old barns and other historic wooden structures, reclaimed Antique Oak flooring presents the most complete reclaimed Oak experience by showcasing the many patinas and colorations the fabled timber developed in its various structural uses.

DISTINCTIVE ATTRIBUTES

A combination of White and Red Oak, Antique Oak flooring is characterized by minimal original saw marks, nail holes, sound cracks, checking, wormholes and naturally occurring over/under wood which creates the dynamic authentic old world appearance of this product. It presents a variety of rustic colorations and surfaces, with varying grain patterns and tight knot structure.
