

EUROPEAN COLLECTION WIDE PLANK FLOORING

Natural Oil Prefinish

EUROPEAN MOUNTAIN OAK

CLASSIC CHARACTERISTICS WITH A REFINED TOUCH

European Mountain Oak is the perfect floor for exclusive design, characterized by its rich brown tones and distinct sapwood. This wide plank floor is fashioned after the refined, darker oak floors found in homes of the upper echelons of European society at the turn of the 17th century.

DISTINCTIVE ATTRIBUTES

Our European Mountain Oak Wide Plank Flooring is live-sawn from fully mature wood to include a full range of the wood's characteristics. The live-sawn milling technique yields much longer and wider board dimensions while including all grades of lumber. This product features tight grain patterns, authentic saw marks, sound knots, and natural checking.

ENGINEERED FLOORING SPECS:

Our European Mountain Oak flooring features real hardwood glued over a plywood core for added stability.

BOARD WIDTHS	3" to 11"*
BOARD LENGTH	2' to 12'
